

ADVANTAGE AGRICULTURE PRESENTS

Ozcal®

The **ultra-fine particle size of Ozcal** results in high reactivity of the pure calcium carbonate.

APPEARANCE	WHITE ROUND GRANULE
NEUTRALISING VALUE	99%
CALCIUM CONTENT	39.2%
GRANULATION SIZING	3-5 MM
COMMON RATES OF APPLICATION	200-500kg/hectare
PACK SIZES	1T BAGS, 25KG BAGS

Each Ozcal granule releases ultra-fine particles immediately upon contact with moisture, working deep into the soil to amend not just the top few centimetres, but the entire root zone.
