OzcalBoron®

OzcalBoron is a compound product with 2% Boron in **EVERY GRANULE**

APPEARANCE	OFF-WHITE ROUND GRANULE
CALCIUM CARBONATE	95%
CALCIUM (Ca)	TYPICAL VALUE 35%
BORIC ACID	2% (BORON 0.3% EQUIVALENT)
GRANULATION SIZE	2-5 MM
COMMON RATES OF APPLICATION	200-500kg/hectare
PACK SIZE	1 tonne

Boron deficiencies are widespread throughout Australia and in low pH soils boron uptake is greatly reduced. Plant available Boron is at its optimum between pH of 5.0 – 7.0, so it is crucial to raise your pH as fast as possible.

OzcalBoron granules provide ultra fine lime particles for a rapid pH response and the release of vital nutrients Calcium and Boron.
