

ADVANTAGE AGRICULTURE PRESENTS

OzgypZinc®

OzgypZinc is a compound product with
1% Zinc Sulphate in **EVERY GRANULE**

APPEARANCE	Off white/grey round granule
CALCIUM CONTENT	22.4%
SULPHUR CONTENT	17.9%
ZINC CONTENT	0.34%
PARTICLE SIZE	95% less 45 micron (average 20)
GRANULATION SIZE	3-5mm
COMMON RATES OF APPLICATION	200-500kg/hectare
PACK SIZE	1 tonne

Even in its pure form, Gypsum & Zinc have a very low solubility. The finer the Gypsum & Zinc particle the quicker the Calcium, Sulphur & Zinc is released.

OzgypZinc's high purity and ultra fine particles make it highly reactive compared to agricultural Gypsum, with the added benefit of Zinc.
